

2018

# EUROSATORY

11 - 15 JUNE 2018 / PARIS

## UAVs & UGVs

Becoming fully transferable platforms, air, land and naval drones now include combat capabilities extremely adapted to new threats. With the help of detection of decision-making circuits from sensor to effector, precision and unique responsiveness, fighter now possesses a range of autonomous systems, integrating observation, communication, intelligence and strike capability always at lowest prices.

Eurosatory, the leading international **land and airland Defence and Security** exhibition is organised every even-numbered year in June. In 2016, the exhibition gathered 1,571 exhibitors, 212 Official Delegations, 57,024 international visitors and 700 journalists from all over the world.

### Conferences

Each edition of Eurosatory is an opportunity to organise conferences on various subjects. In 2016, conferences addressed following issues: "Legislation to boost drones business", "From military to civilian, new use of drones", "Future of the UAVs traffic management", "Land drones - vehicles of tomorrow", "Autonomous systems and applications in the oil industry", "Applications and uses of autonomous systems in an airport environment".

The edition 2018 will also include conferences on drones.

### Exhibitors 2016

Drones area is an integral part of the Eurosatory exhibition. You will find among the exhibiting companies\*:

- AERYON LABS
- AIRBUS
- DOK-ING
- DRONE VOLT
- ECA GROUP
- ELBIT
- GENERAL DYNAMICS
- ICOR TECHNOLOGY
- ISRAEL AEROSPACE INDUSTRIES
- LEONARDO
- LOCKHEED MARTIN
- MILREM
- NEXTER ROBOTICS
- SAFRAN
- SURVEY COPTER
- TEXTRON
- THALES
- ...\*

\* Non-exhaustive list

### UAVs & UGVs at Eurosatory:

- **A technology cluster** since 2006
- **129** exhibitors with activities in Drones sector
- **63** Official Delegations interested in the domain
- Every two years, UAVs & UGVs exposed at **Live Demonstrations**

**Official Delegations**

**In 2016, 63 Official Delegations representing 42 countries visited exhibitors from drones' area.**

**Official Delegations interested in drones**

<b>Defence</b>	Minister or Deputy Minister	Argentina, Cameroon, Equatorial Guinea, Gabon, Russian Federation
	National Armament Director	Argentina
	Special Forces	Italy, Sweden
	Deputy Army Chief of Staff	Brasil
<b>Interior</b>	Police and Homeland Security Directors Delegations	Algeria, Argentina, Belgium, Botswana, Bulgaria, Côte d'Ivoire, Djibouti, Estonia, India, Iraq, Italy, Kosovo, Latvia, Lebanon, Mauritania, Morocco, Mongolia, Nigeria, Portugal, Czech Republic, Saudi Arabia, Senegal, Slovenia, South Africa, Switzerland, Venezuela, ...

**Classification of products, services and industry sectors**

- UAVs and associated equipment
- UGVs - Robots - Land robots
- Detection and Destruction Systems of Improvised Explosive Device (IEDs) - Jamming - Demining Robots
- Infrastructure and sensitive facilities Protection - Detection of dangerous objects and materials
- Special equipment for the intervention units

In addition, national and international technical experts from the Armed and Security Forces, equipment procurement services, drones' industry, robotics, expertise & studies centres and a large number of professional visitors.
